

COVID-19 Management

Perioperative Care

Donning Operating Room PPE

Use a buddy to monitor proper technique!

- 1 Remove belongings including jewelry, watches, and phones.

- 2 Perform hand hygiene. Consider shoe covers.

then

- 3 Don yellow disposable isolation gown with thumbs through thumb hooks. Tie waist ties behind back.

- 4 Don fit-tested N-95 respirator. Mold (do not pinch) nose-piece to obtain seal. Perform seal check.

- 5 Don face shield or eye goggles. Personal eyeglasses are not adequate.

- 6 Don double gloves and pull over cuffs of gown.
